At first glance it may seem hard to read a racing program. But it's really easier than it seems, and the information the program contains is essential to any handicapper.

Kennel: Blair David (12)
Owner: David Blair
Trainer: Roskens, Melaney
 TV Andrew A,Bella Maria,DJ's Karla B0
 Sammers Spirit,RC's Moneyman,Coldwater Claude0
 Bella Slickster,RK Della Street,TV Henry0
 Waynes Fast Girl,Bella Bw Fred,Silentscorpion0
 Kiowa Race,TV Andrew A,RD's Shocktart0

- A.** Distance of the race.
- B.** The track record for that distance, the greyhound that holds the record, and the year the record was set.
- C.** The grade for this race. Greyhound's move up or down in grade based on performance. To learn more, see the grading rules section in this program.
- D.** The greyhound's post position and blanket number.
- E.** The greyhound's blanket color
- F.** The greyhound's name
- G.** The greyhound's color, birth date, sire (father) and dam (mother). When an asterisk appears this denotes that the greyhound was imported from another country.
- H.** Greyhound's set racing weight
- I.** Greyhound's kennel, trainer and owner. The number next to the kennel is an identification number assigned to each kennel racing at Tucson Greyhound Park
- J.** Greyhound's total number of starts followed by 1st, 2nd, 3rd, and 4th place finishes. A separate line is used for each track. The top line shows the greyhound's current season record at TGP. A bottom line would show the previous season's record at TGP, or the current seasons record from another track the greyhound may have run before coming to Tucson.
- K.** Dates of the greyhound's last six races. The letter indicates- "a"- afternoon race, "e"- evening race, "s" means schooling race. The last number indicates the number of the race in that day's performance. For example 11/17/01E10 means the greyhound ran in the tenth race of the evening performance on November 17.
- L.** Track where the greyhound is currently racing
- M.** Distance of the race the greyhound competed in
- N.** Track condition – F- fast, S- slow, M- muddy, L –loose or sloppy (standing water)
- O.** The time of that race's winning greyhound
- P.** Greyhound's post weight at race time
- Q.** Post position and blanket number
- R.** Position out of the box, approximately 10 feet from the starting box. The greyhound's break or exit from the starting box when it opens
- S.** Greyhound's position at the 1/8 mile pole entering the back stretch
- T.** Greyhound's position entering the far turn
- U.** Greyhound's finish position. (The second small number next to number in the 1/8, far turn position indicates by how many lengths the greyhound was ahead and at the finishing by how many lengths the greyhound won or lost by.
- V.** This greyhound's actual running time (ART) in this race
- W.** The greyhound's odds to \$ 1. "Asterisk would indicate the greyhound was the race betting favorite to win
- X.** Grade of that particular race. A number in this column means it was a schooling race and shows the number of greyhounds in the race
- Y.** Chart writer's comments on the greyhound's racing efforts (winning effort, inside, etc.)
- Z.** Order of finish showing first three greyhounds. If this greyhound finishes first, second or third, its name is omitted and the fourth greyhound to finish is shown
