

All exchange wagers must be placed with a live telephone teller.

Twin-Tri: (Trifecta-Trifecta). This is a wager combining a Trifecta selection in the 1st half of the Twin-Tri and a Trifecta selection in the second half of the Twin-Tri. A percentage of the Twin-Tri pool is paid out in the first half. The remaining percentage is carried over to the second half. Place your wagers with a live telephone teller by dialing [1-877-782-5323](tel:1-877-782-5323), before the first half, selecting the first three finishers in order of finish (trifecta) in the first race of the Twin-Tri. If you have a winning ticket, you will get a payoff and a free exchange ticket. You must then call a live telephone teller at [1-877-782-5323](tel:1-877-782-5323) and make your selections for the second half of the Twin-Tri. If you fail to make your exchange before the second half Twin-Tri race closes, your exchange is no longer valid. Holders of winning tickets on the second half of the Twin-Tri collect the second part of the pool plus the jackpot pool carried over from previous Twin-Tris. If no one correctly picks the second half order of finish, the Twin-Tri jackpot pool will be carried over to the next performance.

Tri-Super: (Trifecta-Superfecta). This is a wager combining a trifecta selection in the 1st half of the Tri-Super and a Superfecta selection in the second half of the Tri-Super. A percentage of the Tri-Super pool is paid out in the first half. The remaining percentage is carried over to the second half. Place your wagers with a live telephone teller by dialing [1-877-782-5323](tel:1-877-782-5323), before the first half, selecting the first three finishers in order of finish (trifecta) in the first race of the Tri-Super. If you have a winning ticket, you will get a payoff and a free exchange ticket. You must then call a live telephone teller at [1-877-782-5323](tel:1-877-782-5323) and make your selections for the Superfecta (first four finishers in exact order of finish) for the second half of the Tri-Super. If you fail to make your exchange before the second half Tri-Super race closes, your exchange is no longer valid. Holders of winning tickets on the second half of the Tri-Super collect the second part of the pool plus the jackpot pool carried over from previous Tri-Supers. If there are no winning tickets sold on the second half of the Tri-Super, the pool is carried over until the next performance.
